

## Caleb's Hope Seeks New E-Team Member

Caleb's Hope is looking for an energetic and responsible volunteer to join our E-Team. The E-Team manages electronic communications for Caleb's Hope. Roles include maintaining the official Caleb's Hope website ([www.calebshope.org](http://www.calebshope.org)) as well as Facebook, Twitter, Tumblr, Flickr, You Tube, and other social media accounts. E-Team members also design graphics and images for use in electronic communications and are responsible for the Caleb's Hope newsletter.

The ideal candidate will be extremely comfortable using Dreamweaver and must be able to demonstrate their Dreamweaver skills to Caleb's Hope staff and current E-Team members. The volunteer must also have experience using other scripting languages such as Javascript and PHP. We also desire a strong background in the use of Photoshop or similar programs (such as GIMP). The volunteer should feel at ease taking part in and navigating social media sites. Because the E-Team is located across the globe, location is not important, but the volunteer must be able to communicate clearly in English and be comfortable communicating primarily through email or instant messaging programs. Strong time management skills and the ability to work with a diverse team under tight deadlines are crucial. You must be able to commit to an average of 15-20 hours per month, although the flow of work will vary over the course of a given year.

Interested candidates should fill out the "General Application" at [www.jointhehopemovement.org](http://www.jointhehopemovement.org). For more information, contact us at [volunteer@calebshope.org](mailto:volunteer@calebshope.org).
